Do you remember what the moon Oh told us yesterday?

He said Young Woo Nam did nothing wrong, he wanted to protect Young Woo Nam no matter what.

I wonder why that was. Is it because of the moon or is a nice guy?

I'm sure he knew from the attack that Young Woo Nam was in contact with Jin Woo Nam.

Did he really not notice anything strange?

Oh was it because he already knew everything.

That he was trying to keep us from contacting Young Woo Nam?

He was trying to make it seem like there was no need for us to protect Young Woo Nam.

What...

He's a smart Korean student.

In any case, first let's go and find Young Woo Nam.

I'm pretty sure that Young Woo Nam knows something.
